Dear Dr. Ramos-Ramirez,

We are pleased to inform you that your abstract entitled: "**Naturally occurring CD4+ CD25+ FoxP3+ Treg cells are related to the absence of antigen induced airway obstruction in a guinea pig asthma model**" has been selected for presentation in Poster Discussion entitled "**Asthma: basic science and clinical studies**" at the ERS Amsterdam 2011 Congress. The session will be held on **Tuesday, 27.09.2011** from **08:30 to 10:30** in "**Room G102-103**".

Read carefully the instructions on how to prepare your abstract presentation on our website:  
[www.ersnet.org/instructions-A2011](http://www.ersnet.org/instructions-A2011)

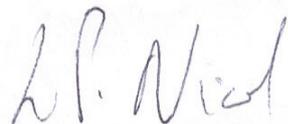

In order to increase the visibility of your abstract during the congress, authors of an accepted abstract will be encouraged to create an electronic version of their work, called E-Poster. A database with all E-Posters will be accessible throughout the congress at the E-Poster area onsite. A personal **password** and **login** (that will be sent to [pathy\\_ramz@yahoo.com.mx](mailto:pathy_ramz@yahoo.com.mx)) to access the link and create your E-Poster online will be sent to you in July as well as E-Poster creation guidelines and poster models to help you in the process. Every delegate can access the platform, consult and comment your E-Poster during the Congress. *N.B. the creation of E-Poster is mandatory for author presenting their abstract in a Poster Discussion session.*

We would like to point out that:

1. At least one of the authors (the presenting author) must be a registered participant at the Congress.  
In order to register, please go to: [www.erscongress2011.org/index.php/home/registration.html](http://www.erscongress2011.org/index.php/home/registration.html).
2. No changes can be made to the abstracts.
3. Real or perceived conflicts of interest that relate to your presentation have to be disclosed when presenting your abstract (on poster or on slide presentation) and on your E-Poster.
4. If, for any reason, you have to cancel your presentation, it is important that you notify us immediately.  
Please use the following contact details:
  - To cancel your abstract presentation both in the *Final Programme* and the *Abstract Book*:  
ERS Scientific Dept. in Lausanne, by fax: +41 21 213 01 03; or by e-mail: [scientific@ersnet.org](mailto:scientific@ersnet.org)
  - To cancel your registration to the Congress: KIT Group by e-mail: [ers2011registration@kit-group.org](mailto:ers2011registration@kit-group.org)

If you will not be the one presenting the abstract, we would be grateful if you could pass on the information in this letter to the person concerned.

Yours sincerely,  
ERS Scientific Activities departement on behalf of

Laurent-Pierre Nicod, Scientific Committee Chair

**N.B. No-shows:**

Every year, a number of authors with accepted abstracts fail to attend the Congress or to present their work. We wish to remind you that if you do not show up, or do not have a co-author present in your place, you may not be invited to present your work at future ERS meetings.
